MEMORANDUM FOR: DEPUTY CHIEF OF STAFF, OPERATIONS

SUBJECT: (Top Secret) Attack Against Airfields in the Antung Area

1. Because of the precarious position of USAF forces in Korea vis-a-vis the Communists, it was decided to study the capabilities of our forces to damage enemy aircraft on the ground. The results of this study are shown in the attached operations plan.

2. This plan provides a general appreciation of the damage present forces in FEAF can cause using conventional weapons. It is not intended that this plan be used for an actual operation.

3. This operation as planned includes an attack on four airfields in the Antung area by B-29's and fighters. The attack does not include B-26's because most of them are of night intruder configuration and because of their vulnerability.

4. Although this attack should damage a majority of approximately 290 MIG-15's and 130 conventional aircraft, it will leave undamaged approximately 1200 jet fighters and 1200 conventional fighters and bombers on other airfields threatening Korea.

5. This operations plan is forwarded for information only.

MEMORANDUM FOR RECORD: 5 January 1951

1. In accordance with verbal instructions of 11 December 1951 an operations plan USAF No. 0-51 for an attack against air fields in the Antung area was prepared. This operations plan was sent to General Ramey for his information.

2. The operations plan was returned with the comment from General Ramey asking whether or not it should be sent to DCS/O. Col Gibson directed that the operations plan be forwarded to DCS/O for information.

3. Prepared memorandum for DCS/O as shown.
